Indonesian
Journal of
Obstetrics and
Gynecology

Founded 1974

Volume 7: No. 1, Page 1-73, January 2019

Editorial

- Preeclampsia after the Seven Quantum Leap Prediction 3

Research Articles

- Socio demographic and nutritional determinant of birth weight in coastal area 5
- Knowledge of Midwives as a Healthcare Provider about Hypertensive Disorders during Pregnancy 9
- Serum lipid pregnancy and postpartum severe preeclampsia 15
- Leucocyte esterase activity (LEA) for identifying choriomnionitis cases 21
- The associated of serum inhibin A levels in severe preeclampsia 28
- Relationship of serum cortisol levels with postpartum blues on dystocia labor 33
- Relationship of the role counselor, knowledge trust, values and social relationship in contraception acceptor's decision of using intrauterine (IUD) 39
- The association of acceptance family planning acceptor to contraceptive tools interest usage in the uterine (IUD) 45
- Risk factor for stress urinary incontinence following vaginal and cesarean delivery 49
- Sacrospinous fixation effectivity in pelvic organ prolapsed patient 53
- Comparison of postpartum urinary retention healing between group with method of residual urine measurement four hours versus six hours post-delivery 60
- The proportion of lymph node metastasis in patients with stage II A1 and IIA2 cancer who were treated for radical hysterectomy and pelvic lymphodenectomy 64
- Concordance of human papilloma virus type 16 and 18 in cervical and oral specimen of cervical patients 69
